

# WORKSHOPS

BY MINISTRYLIBRARY

This workshop is intended to help you think through the changes in mindset of our culture and begin to see how you can make upgrades to your church environments that will better reach your surrounding communities.

As you go through the video, make a note of anything that sticks out to you so you can remember to come back later. Go through the Team Discussion Questions below with your team to get some discussion and collaboration going. Then as a team or individuals go through the What's Next questions below. Provide due dates for any action steps you identify.

## Team Discussion Questions:

- » How have we seen a postmodern mindset affect our church?
- » What needs has a postmodern culture created that people are looking to fill?
- » What is the biggest area of upgrade needed in our church?
